Gather your staff so they can experience the passion of a Patterson program and learn from one of the Masters of CMAA. These are wild and crazy times. Turbulence and tension are the norm, 24-7. The problems are endless and the pressure is building.

Maintaining a passion for clubdom is tough, satisfying the members is tough, generating & maintaining staff enthusiasm is tough, keeping the family happy is tough, finding time to do it all and enjoy life is tough. Managers and staff are stretched thin, wound tight, and bummed out. This highly interactive workshop will focus on burnout, how to avoid it, how to confront it, and how to deal with it during and after the virus madness.
